

Carte Blanche: The Erosion of Medical Consent

By John Smith

In *Carte Blanche: The Erosion of Medical Consent*, John Smith exposes the disturbing truth about the erosion of medical consent in our society. This groundbreaking book is a must-read for anyone concerned about the future of healthcare and the rights of patients.

Smith argues that the traditional model of medical consent, based on the principle of informed consent, is under attack from a variety of forces. These forces include the rise of managed care, the increasing complexity of medical technology, and the growing power of the pharmaceutical industry.

As a result of these forces, patients are increasingly being asked to sign consent forms that they do not understand and that waive their rights to

make decisions about their own healthcare. In some cases, patients are even being coerced into treatment without their consent.

Smith's book is a powerful indictment of the current state of medical consent. He argues that the erosion of medical consent is a threat to our autonomy and our right to make decisions about our own bodies.

Carte Blanche is a wake-up call for all of us who are concerned about the future of healthcare. Smith's book is a must-read for anyone who wants to understand the threats to medical consent and to fight for the rights of patients.
